

Nitin Sen

AI/ML Undergraduate | Machine Learning | Data Science

Phone: 7067186232 | Email: nitinsen91650@gmail.com | LinkedIn: linkedin.com/in/nitinsen001

Professional Summary

B.Tech undergraduate in Artificial Intelligence and Machine Learning with foundational knowledge of Machine Learning, Data Science, Python programming, and statistical concepts. Hands-on experience with academic and self-driven projects, Django-based web applications, and problem-solving using data structures and algorithms. Seeking AI/ML, Machine Learning Engineer, or Data Scientist internship or entry-level opportunities.

Education

B.Tech – Artificial Intelligence and Machine Learning (2023 – 2027, Expected)

Jawaharlal Institute of Technology, Borawan (Affiliated to RGPV)

CGPA: 7.41 / 10 (Till 4th Semester)

Technical Skills

Programming Languages: Python, C, C++, HTML, CSS

Libraries & Tools: Pandas, NumPy, Matplotlib, Scikit-learn, Git, GitHub, Django, SQLite3, MySQL, PL/SQL

Core Concepts: Machine Learning (Basics), Data Science, Artificial Intelligence (Basics), Statistics & Probability, Data Structures & Algorithms, File Handling, Web Development (Django Basics)

Experience

Web Development Intern – CodeAlpha (June 2025 – July 2025)

- Completed a 1-month remote internship focused on web development.
- Built frontend interfaces using HTML, CSS, and JavaScript and backend logic using Django.
- Gained hands-on experience in responsive design, authentication, and full-stack development.

Research Participant – Harvard-Affiliated Innovation Challenge (June 2025 – Present)

- Participated in a research-driven innovation challenge led by a Harvard university professor.
- Selected among the Top 20 teams for the final round presentation.
- Collaborated on proposing innovative, socially impactful, and technically feasible solutions.

Projects

E-Commerce Store – Django (June 2025)

- Developed a full-stack e-commerce web application using Django, HTML, CSS, and JavaScript.
- Implemented user authentication, email verification, product categories, search functionality, shopping cart, and PayPal payment integration.
- Designed responsive UI and ensured smooth user experience.

Student Dashboard with User Profile – Django (June 2025)

- Built a dashboard application allowing users to log in, view profiles, and manage data.
- Customized frontend using CSS styling and JavaScript animations.
- Used Django templates for modular and reusable components.

ShareIt File Sharing System – Django (April 2025)

- Developed backend functionalities for secure file upload, download, and sharing.
- Implemented user authentication, session management, and database handling.

Student Record Management System – C (Dec 2024)

- Designed a console-based application for managing student academic records.
- Applied file handling and data structures such as arrays and linked lists.

Relevant Coursework

Machine Learning (Introductory), Data Science, Artificial Intelligence (Basics), Python Programming, Object-Oriented Programming, Web Development (HTML, CSS, JavaScript, Django), C and C++ Programming

Certifications

- Machine Learning in Python Environment – Alison
- Introduction to Machine Learning – DataFlair
- Generative AI Program – SheKunj
- AI Powered Collaboration – LinkedIn Learning
- Ethics in the Age of Generative AI – LinkedIn Learning
- Programming in Python for Beginners – Infosys
- Advanced HTML – Infosys
- GFG 160 Days of Problem Solving – GeeksforGeeks
- C/C++ Essentials Training – LinkedIn Learning

Academic Achievements

- Selected among Top 20 teams in a Harvard-affiliated research innovation event.
- Qualified JEE Mains with 75 percentile and secured a Tuition Fee Waiver (TFW) seat.
